NEIGHBORHOOD INPUT

Notice of a Public Hearing was mailed to all property owners within 300 feet of the subject property on February 27, 2014. The Planning Division has not received any letters or phone calls in support or opposition of the condition release request.

APPLICATION DESCRIPTION

The request is to release all conditions imposed by Ordinance No. 3962, dated May 9, 1968, Ordinance No. 4976, dated November 29, 1972, and Ordinance No. 5237, dated January 18, 1974. The contract conditions require: (1) approval of a detailed site plan by the City Plan Commission, (2) submission of a traffic plan before building permits are issued, (3) platting of the property, and (4) limiting the use of the property to a savings and loan association.

CITY DEVELOPMENT DEPARTMENT - PLANNING DIVISION RECOMMENDATION

The Planning Division recommends **approval with a condition** of the condition release request. Planning recommends releasing the conditions imposed limiting the use of the property to only a financial institution, platting before building permits, and submission of a traffic plan as they are no longer necessary. Planning also recommends that a condition be imposed requiring a 10' landscape buffer adjacent to any residential, in addition to landscaping required per City Code. Located at the intersection of two major arterials, and existing among similar neighborhood serving commercial properties, the subject property is appropriate for the full range of C-1 uses. The landscaping condition is appropriate given the adjacency of residential properties.

Plan El Paso-Future Land Use Map Designation

All applications shall demonstrate compliance with the following criteria:

G-3, Post-War: This sector applies to transitional neighborhoods typically developed from the 1950s through the 1980s. Streets were laid out with curvilinear patterns without alleys and shopping centers are located at major intersections behind large parking lots. This sector is generally stable but would benefit from strategic suburban retrofits to supplement the limited housing stock and add missing civic and commercial uses.

The purpose of the C-1 (Commercial) district is to serve the needs of surrounding residential neighborhoods by providing compatible neighborhood convenience goods and services that serve day-to-day needs. The regulations of the districts will permit location of business and professional offices and retail category uses within adjacent residential areas of medium and high densities.
